Good afternoon Larry,

JE=just called and informed me that you will arrive at ISP on Thursday at =pproximately 2:00pm.

He=also noted that you have a squawk list for the aircraft. Please =-mail me this list at your earliest opportunity so that I can include =t and consolidate the one (1) list for us to work off =f.

Je=frey ad I had a discussion regarding a single hole for each of the two =subwoofers, how he would like the seat switches to be sequenced (if =possible- from the furthest point away from the passenger "seat =ack", middle position "foot rest", closest to the =ack rest "lumbar".

We=also discussed the overhang of the bottom cushion on the divan when in =he berthed position, make sure the shades do not stick during travel, =ake sure that the headphone jack panels are snug secure (3 are not) - =e will check all of them. We will also look at the tables to see what =ore we can do after deployment to help minimize the "spring =oard" action.

After =peaking with JE this morning,

</=:p>

Please note =hat we identified the cup holders, discussed the rattles and addressed =he sidewall tables and their lids.

</=:p>

Attached is =he updated list-

</=:p>

</=:p>
