The equipment currently in use will need to be removed to accommodate the new microwave link. This work is included in the quote and I have the FCC Licensing fees included as well. The FCC fees were quoted separately but I wanted to make sure they did not get missed. This is a quote not a budgetary and may be reduce slightly depending on the amount of antennae mounting hardware that will be suitable for installing the new 6 foot antenna at Sandia Crest. There would only be a slight reduction to the amount quoted for the antenna mounting hardware on the TeleBeeper tower. A pre-tower inspection would have added to the cost.
