hi jeffrey,

..i was searching for a picasso painting that wou=d work with tha beach picasso painting, and i found one somehow similar =o the painting we have(the first attachment) i think we can use=some elements from that painting, make it less busy and pick some colors=from the painting we have, maybe some of the colored dots from the old p=inting and maybe one of the big square orange or blue shapes we have in th= old painting..

what do you think? it seems picasso did both b=ach paintings somehow in the same period of time.

maybe you sa= already this painting..i told sue to do a print for me a day before..i wa=tet to show you in prints, put one near the other..

=3B thank you,
