Dear Jeffrey,

you asked for a pitch that I would give to Bill Gates if I had the chance. I have given it a shot, did a couple of iterations and attached = draft.

I would very much appreciate your feedback if you find the time!

Bests

Joscha

PS: It might be interesting to talk with Roger about it, if you are =till planning to introduce us.

PPS: I have gone for an AI proposal (since this is more in the area I am =interested and knowledgeable in). I still think that a "simulate the =world financial system" proposal might be more appropriate for the =ill&Melinda foundation, though (and is extremely interesting, too).
