The 2011 Form 1065 schedule L shows a balance in partners capital accounts of 5,589,263. The individual K-1 shows a balance or IGY LTD of 4,316,636 and for Mr Epstein of 4,691,888.

With respect to the capital accounts I have the following questions:

- 1) please explain the difference in the amount of 3,419,261 between the total balances on the K-1s verses' the balance on schedule L
- 2) Please explain the net stepup of 375,252 to Mr Epstein's capital account
- 3) If both partners share 50% of profit and loss as per the K-1, why are they being allocated different amounts of P&L as per your analysis

please advise

The results of those analyses will not be ready until closer to year-end.

You had also asked that I provide a range of cap rates for you to use in your analysis. I would submit to you a range anywhere from 6% to 11%.
