Hi Rich,, I just =poke to this gentleman at length, he sounds very sharp and he explained =t length that he was involved in many aspects of family office =ealth management and has had a lot of exposure to partnership =ccounting as they were involved with hedge fuds, fund to funds and =arious investments. He has been involved on the tax partnership audit =ide, capital calls, fund allocations, and day to day involvement on all =pects of the individual family wealth from a singular office, I =eally liked him, He can do a phone interview today if you wanted to =hat with him for a few minutes to get a feel. He is sending me his =compensation,, All in he is around 350K

I will be getting =nother one this evening from a CPA that I know from Needham Financial. =im Giangrasso,

Hi Russell,

The role sounds fantastic, =hallenging and exactly what I am looking for. I am currently the =FO at a family office that also co-invests and manages various =und-of-funds and has many private equity investments. I am =ctively looking for a similar role that will allow me to focus on the =amily's investments, reporting, tax, estate planning and cash =anagement. I have been a CPA since 2001. In today's =andscape, a CFO must be more than just a CPA and be able to manage, =rganize and improve all aspects of the firm while taking pride and =esponsibility for their work. Hopefully you will see that I am =hat person.

I am available for a conversation to =earn more about the position. Please reply via email or call my =ell [REDACTED].

Looking forward to =orking with you.

Thank you,

Michael Shankman
