**Subject:** GYM Link Equipment Needed  
**Attachments:** Invoice #2.pdf; Untitled attachment 00148.htm

attached is invoice from Terrence for new gym link i believe we paid 2516 for this unit on original quote yet he says it was 3996 none of his descriptions match and when questioned terrence begins to say that he changed this into a main unit and we cannot go by original pricing his story for price discrepancy keeps hanging

terrence says that gym link is now main hub as it initially takes all bandwidth from dragon wave

per terrence the original unit was taken down when gym roof replacement was done (without any care or regard) and placed on its side causing antenna signal to weaken when i questioned warranty terrence states that it will not qualify as it still works occasionally but for 1000 and shipping we can refurbish  
i have a hard time believing anything he says as story changes each time we speak yet unfortunately we probably do not have many other options

please advise if we should proceed with attached quote of 4,050 (note his original quote for same items 1 week earlier was 4,796) thank you

Not sure but we don't use b/g anymore. That is the same unit. If it's a issue I can have here redo it sir.

Terrence if we are purchasing repeater CPE and it reads as 02.11 a / b / g / n on original invoice why does your attached invoice read

Ruckus 731 802.11 a/n bridge (where is /b/g) or was that left off deliberately

please advise  
thank you

Hi Rich,

Looking at the invoice you are choosing the wrong item. The repeater cpe was \$3996.00 and I changed 2 of them making a pair into your main link. I had to upgrade the firmware and add premium support to allow them to handle 100 megs directly from the ragonwave radio at the tower to the gym. This allowed us to use the service since we lowered the tower height and didn't have any fiber to the tower.

I hope this clarifies everything. As I am in business to make money but I am very fair, with my prices and labor.

Emergency situation at LSJ, the gym link is going up and down. I requested to change this from Monday, or at least order one and run new cables. This is the main inlet for the internet into LSJ ifi.

I'm trying my best to circumvent the issues but there's only so much I can do with a damaged radio. Please advise and I would have it fedex.

I sent out a revised invoice on the request of Leighton, which forwarded to Anna and I believe Rich has a copy.

Hi,

Here's the revised invoice for the replacement radio on the gym on LSJ.

Thank you for your business.

Your Invoice is attached to this email.
