I spoke with Merwin and he was not comfortable doing this work with alone Leo as he believes it requires 3 men
Merwin understood that there was no electrification however he explained that we needed to drill a box into concrete slab, then attach clamp and steel cable I asked Merwin to have vendor reduce price from 3400 to 2800 (17.6% decrease) and they agreed Please advise if ok to proceed Thank you

Hi Rich,

I chose Apollo Electric to secure a box up in the ceiling. One, they are already doing work in the house and 2 they do these type of work when hanging heavy chandelier, the only difference is instead of a chandelier it's a statue.
