**Subject:** Wolfram Technology Conference--register today

The 2015 Wolfram Technology Conference will be here before you know it. Don't miss your opportunity to register!

The conference takes place October 20-22 in Wolfram's headquarter city, Champaign, Illinois. We'll be demonstrating the latest in cloud computing, interactive deployment, mobile devices, and more as we explore how Wolfram technologies are pushing the boundaries of computation.

Here's what you can expect:

- \* Extensive opportunities to interact with the creators of Wolfram technologies. Hear directly from developers about recent advancements that will save you time, money, and effort.
- \* Intensive pre-conference training and hands-on instruction for implementing these new capabilities.
- \* The chance to talk shop with people who get it. Connect with your colleagues and Wolfram staff in topic-based meet-ups, networking events, and roundtable discussions.

Your expertise and insight would be a welcome addition to this year's conference, and we're sure you'll find the unique, multidisciplinary program to be stimulating and immediately applicable to your work.

Featured topics include:

Data science & visualization  
Connected devices  
Mobile & cloud deployment  
Software development  
Computational finance  
System modeling & simulation  
Engineering  
Signal & image processing  
Educational technology  
And many other fields

To help you make the most of your trip, we're offering pre-conference training workshops on Monday, October 19. The lineup includes:

The Wolfram Language: Image Processing Concepts and Methods  
The Wolfram Language: Visualization Fundamentals  
The Wolfram Language: Programming Fundamentals  
Wolfram SystemModeler: An Introduction  
Wolfram SystemModeler: Analysis and Model Design with Mathematica

For more details on pre-conference workshops, visit:

Technology Conference registration closes on October 9 and seats are limited, so register today:  
<http://url.wolfram.com/53dPjJy/>

See you at the conference!

Best regards,

The Wolfram Technology Conference Team
