Hello!

Attached the deck, thanks for taking the time today (and sorry for the =elay).

Btw speaking of Leon Black, it'd be awesome if at some point in =he next few months we could do a test run with Apollo once we also have =he iOS version ready. I know they currently use one of our competitors, =o maybe we could have them switch :)

Anyway, let me know what you think of the deck. (and also if you change =our mind about comedy central this week vs October)

Thanks,  
V
