Add wisdom to your interior with an aged sofa and mathematical sketches. Be inspired by Da Vinci's designs for a flying machine with its arching wings, complicated gears, and twirling propellers. These sketches not only challenged us to rethink air travel, but also our home's style. Create this same imaginative industrial look with spiraling metal light fixtures, stacked vintage-inspired trunks, and a light, natural color that gives everything an antiqued look.

You'll Be Shocked By Da Vinci's Influence On Design

Leonardo Da Vinci was an inventor and creative who paved the way for many of the things we take for granted today. One of his "crazy" ideas was a flying machine (or the ornithopter), and led the way for today's airplanes. Though Da Vinci's machines were never actually created, these machines still have a lot to teach us.
