St. Thomas, USVI 00802

July 22, 2014

Dear Mr. Jeffry Esptin,

Hello I would like for you to help me. I'm sorry I am no one to write you this letter but I am your employee in St. Thomas VI. I worked in the area of housekeeping. My name is Reyna Amparo (also known as Sandra). I left work with a medical record that states that I cannot work for three months. I understand that it was a long time but in every companies the manager gets sick and they have their rights. I went to my job one and a half month ago and they didn't give me back my job because you said that I was fired. I went to Ginna's office and I want to know if this is true yes or no. I do not trust your employee and I did not sign the documents that she gave me to sign. I have my problems without having to do anything. I don't think that you can fire me just like that or doesn't it have laws. They put an employee full time since I left and it was my aunt. At that time I took my vacation time also I took off one month and one week but only one week was of my vacation. I implore that you help me. I would like to have my job back. I have never caused any problems for you or your company. I feel like I have given your company the best services that anyone can give. Please take these words into consideration and help me to recuperate my job that I need so much. I have bills to pay and I am unable to do so without a job.

Feel free to contact me at [REDACTED].

Best Regards,

*Reyna Amparo*
