Subject: Invitation to online webinars presented by Luria Neuroscience Institute

Dear Jeffrey Epstein,

The Luria Neuroscience Institute invites you to attend online webinars about the brain and the mind. The programs are intended primarily for professionals concerned with mental health and with the brain and brain disorders. Each webinar will take 3 hours and 3 CE Credits will be awarded for each.

Dates: November 12, November 19, December 3 and December 10, 2014 (all Wednesdays).

Time: 1pm - 4pm EST (12pm - 3pm Central Time / 10am - 1pm Pacific Time).

The webinars will be recorded and archived. The participants who are unable to join the webinar live will be able to view it as a homestudy course and will receive the CE credits upon completion of a quiz.

Download webinars brochure here <<https://s3-us-west-2.amazonaws.com/lni/lni-brochure-webinars.pdf>> (PDF file, 465 Kb).

For more information please visit lnstitute.org <<http://lnstitute.org/>> .

Frequently Asked Questions here <<http://lnstitute.org/webinars-frequently-asked-questions-answers>> .

Webinar 1: Executive Functions and the Frontal Lobes (November 12) Topics to be covered:

- * Executive functions and frontal-lobe functions: are they the same?
- * Components of executive functions (planning, impulse control, working memory, and others).
- * Novel approaches to understanding the frontal-lobe functions.
- * Executive functions, laterality, and sex differences.
- * Regulation of emotions: frontal lobes and amygdala.
- * Executive functions in development and aging.

Read the full description and register today at here <<http://lnstitute.org/20140825/neuropsychology/executive-functions-frontal-lobes>> .

Webinar 2: Executive Dysfunction in Brain Disorders (November 19)

Topics to be covered:

- * Executive dysfunction in neurodevelopmental disorders (ADHD, Tourette's Syndrome).
- * Executive dysfunction in dementias (Alzheimer's disease, Lewy body dementia, Fronto-temporal dementia).
- * Executive dysfunction in cerebrovascular disorders (CVA, aneurisms).
- * Executive dysfunction in traumatic brain injury (reticulo-frontal disconnection syndrome).
- * Executive dysfunction in neuropsychiatric disorders (schizophrenia, affective disorders).

- * Executive dysfunction in movement disorders (Parkinson's disease, Huntington's disease).

Read the full description and register today at here <<http://Institute.org/20140825/neuropsychology/executive-dysfunction-brain-disorders>> .

Webinar 3: Laterality and Functional Organization of the Brain (December 3)

Topics to be covered:

- * Where the traditional notions of hemispheric specialization got it wrong.
- * Functional laterality and brain anatomy.
- * Novel approaches to hemispheric specialization.
- * How the two hemispheres develop and age.
- * Laterality and gender and handedness differences.
- * Laterality and regulation of emotions.

Read the full description and register today at here <<http://Institute.org/20140825/neuropsychology/laterality-functional-organization-brain>> .

Webinar 4: Laterality and Brain Dysfunction (December 10)

Topics to be covered:

- * Laterality and learning disabilities (dyslexias vs NVLD).
- * Laterality and dementias: Is fronto-temporal dementia lateralized?
- * Laterality and striatal disorders (Parkinson's disease and Tourette's syndrome).
- * Major cerebrovascular disorders and cerebral hemispheres.
- * Laterality and neuropsychiatric disorders: Schizophrenia and the left hemisphere.
- * Laterality and differential functional breakdown threshold.

Read the full description and register today at here <<http://Institute.org/20140825/neuropsychology/laterality-brain-dysfunction>> .

About the speaker:

<<https://s3-us-west-2.amazonaws.com/lni/goldberg.jpg>> The lecture series will feature Elkhonon Goldberg, Ph.D., ABPP, a clinical neuropsychologist and cognitive neuroscientist, Clinical Professor in the Department of Neurology, NYU School of Medicine and Diplomate of The American Board of Professional Psychology in Clinical Neuropsychology. Elkhonon Goldberg, Ph.D., ABPP authored numerous research papers on functional cortical organization, hemispheric specialization, frontal lobe functions and dysfunction, memory and amnesias, traumatic brain injury, dementias, and schizophrenia. Goldberg's books The Executive Brain (2001), The Wisdom Paradox (2005), and The New Executive Brain (2009) have been translated into 16 languages. He coauthored The SharpBrains Guide to Cognitive Fitness (2013). A sought-after educator, he has lectured worldwide. Elkhonon Goldberg was a student and close associate of the great neuropsychologist Alexander Luria.
