i spoke with januisz and asked why so expensive - JB said =aterial required 150 gallons of epoxy as small sample area used 3 =allons

not sure if =ink is correct for product they are using but it is expensive http://aeromarineproducts.com/rock-pebble-deck.htm?gclid=Cj0KQjwn86sBRDroPiROLrSzNYBEiQAzOaSYDPxXoCCDugHUF_BK-gGehuUS9ZJTwcsD5bdPwJtBs=aAuYw8P8HAQ

JB also said that it is very labor intensive and will take at =east 1 week to complete as they have to remove all stones and sand, =lean then put stones back in along with epoxy

please advise if you would like done =nd if so i will attempt to negotiate a better price thank you

Juanusz, sorry it took so long to get =roposal for the past couple of days I had a lot of trouble with my
=omputer.

Sincerely

Steve
