Good Afternoon Anna

I came back on Island today and reviewed progress on Big ,all looks gre=t and I'm please with progress.
A decision =eeds to be made on the fuel tanks. At this time the tanks are not leaking =ut will in the near future.

After extensive cleaning the bottom of the tan= has many large pits that will soon start to leak.

The condition of the tanks most likely were caused by not having a prop=r sealing of the deck fuel fitting
allowing salt water to enter the tank a=d do its damage.

These fittings were placed on the d=ck ,in our quote we would have a stand pipe above the deck next to t= the
wheel house so this problem will not happen again. We will ne=d a answer soon so work will not be delayed any longer
than necessary.

Please visit or call wit= any concerns.

Thanks
