Daphne,

Please find attached an estimate for the repair of the projector as well as travel expenses we have already paid for. Note that we have included on this quote (2) light bulbs and (1) lens as a precaution in case these parts need to be replaced. Please be aware that, because we have listed the said equipment as "optional" we have actually only collected a 33% deposit instead of our standard 75% deposit. Any additional charges or credits will be applied to the final invoice. If you have any questions, please let me know.

Best,

Cindy
