Subject: RE: Webinar "Executive Functions and the Frontal Lobes" (November 12)

Dear Jeffrey Epstein,

Only one day left to register for the online webinar "Executive Functions and the Frontal Lobes" presented by Dr. Elkhonon Goldberg. The event will be streamed live on Wednesday, November 12 at 1:00 pm Eastern Time. Topics to be covered:

- =ul>
- * Executive functions and frontal-lobe functions: are they the same?<=li>
 - * Components of executive functions (planning, impulse control, working memory, and others).
 - * Novel approaches to understanding the frontal-lobe functions.
 - * Executive functions, laterality, and sex differences.
 - * Regulation of emotions: frontal lobes and amygdala.
 - * Executive functions in development and aging.

The webinar will take 3 hours and 3 Continuing Education Credits will be awarded. The event will be recorded and archived. The participants who are unable to join the webinar live will be able to view it as a homestudy course and will receive the CE credits upon completion of a quiz.

This webinar is the first event in the series of programs by Dr. Goldberg:

Nov 12: Executive Functions and the Frontal Lobes Nov 19: Executive Dysfunction in Brain Disorders Dec 3: Laterality and Functional Organization of the Brain Dec 10: Laterality and Brain Dysfunction <=r>There are no specific software requirements and webinars can be watched on any internet connected device including tablets and smartphones.

For more information about the webinars please visit Luria Neuroscience Institute web site <http://lninstitute.org/>.

Thank you,
Luria Neuroscience Institute
