Subject: DU885 GIV cockpit

Jeffrey

I demo'd the GIV cockpit upgrade DU885 with a friends GIV based at Galaxy in Palm Beach. I'm very impressed,. they installed XM weather option with FLIR camera for night vision (\$130k option, similar to the \$1M EVS cockpit in G450's „I'll be able to see cloud tops at night, mountainous terrain etc), Jeppview charts. I have a 9am conference call with Gulfstream manager for full break down of cost and options available to us,. Bright screens, removes loud cooling fans in cockpit,.meets 2015 avionic requirements for north Atlantic crossings,.is main reason to accomplish this,.
