Please see below from Dr Fallahpour. Did you want [REDACTED] to do the Brain Mapping tests also?

Hi Lesley.
I only need her for about an hour to complete the test. So, 9th would be best for that.

On the other hand, when speaking with her in NYC last time she also expressed interest to do another set of tests (brain mapping) which is not for the purpose of school accommodations but something she wanted to pursue in order to do interventions that can help with improving her symptoms. This test takes 2-3 hours. I don't know if she would like to do these tests also when she is back which is something we discussed but did not have firm plans. Would you like to discuss that with her or should I email her about that?

Let me know.

Best,
KF
