**Subject:** Re: FW: Jeffrey

The "local" office for the FBI is located in North Dade. The building has fairly tight security and is situated so that only the public parking area is easily visible. I will look it over next week. In general if she is an active agent she would have a "company car" but not always.

The most recent traffic citation I find for her was what appears to be a red light ticket in Sunny Isles Beach on 7/12/09, presumably while she was still with RRA.

I just checked Brad's office because I drive by it all the time.
