Thank you for your email, Cody -

I enjoyed last year's luncheon too!

10/16 Wed sounds good -

Hey Dr Tramo,

I hope that the summer has treated you well. Maybe you got some time off and were able to do something fun. I was in Germany for a month learning the language; it was great! Glad to be back in LA though.

Anyway, I would really love to do something with you for Cognitive Science Student Association. Everyone loved the professor luncheon you did last year! We will have a whole new batch of freshman coming in and getting them an opportunity to interact directly with a professor will be an experience that really sets our group apart and help us retain new members.

Earlier in the quarter is better for us, but of course we are flexible to whatever works for you. What would you say about **Wednesday October the 16th for dinner?** Just let me know!

Thanks for your time Dr Tramo,  
Cody
