Good morning Mr.Epstein the visit Friday at 10:30am from Cutting Edge is to work on the 6th floor media room this is included in the original scope of work .This visit is a final check of the system to make sure the projector did not shift and to install the 3D module this is a final close out of the installation, cutting edge is requesting final payment on that day and cutting edge will turn over the source codes for the system to us.

Hey Richard,

I'd like to know if we can access the media room on Fri morning the 22nd to do the final tweaking on the projector and install the 3D module.

Best

Jeff
