Subject: Status update

We are holding off on posting these articles for another 2 weeks... waiting to see how something goes for JE around then.

I do not want us to post our positive sentiments and start building momentum and then have them derailed with negative sentiment articles again. Google will work with us if we can grow the positive sentiment moment and keep it going for 3-4 months...

JE is OK with this hold off. I'm also aiming to visit him in person to further our strategy in the beginning of Oct.

[REDACTED] will continue to add supporting links to the fresh content you set up and am continuing to keep a few positive URLs in promotion cycle while we wait. Please send over the fresh links once they are ready.

Jeffrey please connect us with your contact at Scientific so we can "help" with the edits there.
