Mr Epstein this two compressor set up is a good idea, If one compressor has any problem the other compressor will act as a back up and kick in also you can split the run time between the two to save on wear. This company has come up with the best solution to the library system operational problems with out changing the entire system and driving the cost up ,their approach is moving this project in a positive direction. I have had a very good conversation with Dave from Refco about the proposed solution and like the engineering solution that he proposes, so far this is the only company that is addressing the operational issues and not just selling equipment. Jeffrey  
attached bid from Reefco Services, St Thomas, for your  
review  
Estimate cost to replace existing Chiller system  
\$44,549.00  
Rich Barnett has review control system and approach  
This system uses sea water, similar to an AC system on a

boat

Lead time 3 weeks, upon payment of deposit

do you wish to proceed
