It was nice speaking with you. Attached are the items that we discussed: (1) [REDACTED] call records; (2) [REDACTED] text records; and (3) [REDACTED] 302. All call/texts records were taken from [REDACTED] phone. The SW for his phone was executed on August 16, 2019 when he was being interviewed at SDNY. Please note that the call records are EST (UTC -4) but the text messages are UTC. Please let me know if you have any questions. Thank you.
